## CRANK THREATENS TEDDY ROOSEVELT

CRAZY FELLOW PASSENGER CREATES EXCITEMENT

TEDDY CALLS IT NOTHING

CRANK THOUGHT ROOSEVELT STOLE HIS CHILD

CLAP THE FELLOW IN IRONS

Italian Restrained and Matter Suppressed Until Ship Reaches Port Cable

HORTA, Azores, March 30.—Ex-President Roosevelt took occasion during the few hours that the steamer Hamburg stopped here enroute to Naples to express his indignation over the reports cabled from here that an attempt had been made on his life on the Hamburg by an insane Italian named Giuseppe Testi, a steamer passenger.

"It's nonsense to send out such a story," Roosevelt said, with characteristic energy. "The man may have made the remark credited to him, but I never saw him, heard no commotion and never knew anything about it until the poor fellow had been put in irons."

Captain Burmeister of the Hamburg, also minimized the Testi affair, and it was by his orders that none of the correspondents were allowed to send back a wireless message concerning the incident. Not until the Hamburg touched at this port and when a cable office became available was the news sent out.

Testi, who is clearly insane, became violent in midocean and surprised other steamer passengers and sailors by shouting "Roosevelt permitted them to steal my child and I am going to make him pay for it."

Started After Teddy. Testi started to go toward the gangway leading to the upper deck but before he had taken a half dozen steps, he was seized and overpowered. On Captain Burmeister's orders he was placed in irons and will be kept a prisoner until the vessel docks at Naples, when he will be turned over to the Italian authorities.

"The fellow is not an anarchist," his steamer friends say, "but simply the victim of an hallucination." When the ex-president was told of the incident he was greatly surprised and requested that nothing whatever be sent out regarding it.

Roosevelt never appeared in more robust health than when he came ashore here. The week's comparative inactivity aboard the Hamburg has increased his weight slightly, despite the fact that he is undergoing a regime of but two meals a day, but he says he will quickly reach his "real fighting weight" when he reaches Africa.

Roosevelt Ashore. PONTA DEL GADA, Island of Sao Miguel, Azores, March 30.—The Hamburg arrived in this port this morning at 8 o'clock and a short time later ex-President Roosevelt came ashore and was enthusiastically greeted by a large crowd of natives and nearly all of the foreign residents. It was not known that the Hamburg would stop here until a few hours before her arrival, and for this reason no extended preparations were made for receiving Mr. Roosevelt. Edward A. McCreery, the American consul, and Wm. W. Nichols, vice consul, received Roosevelt and young Kermit and brought them in an automobile to the city. After a brief stop the Hamburg continued on her way, the farewell to Roosevelt being as vociferous as the welcome.

"Roosevelt spoke briefly to the crowd just before going aboard."

## COWBOY MURDERER MAY BE LYNCHED

LINCOLN, Neb., March 30.—Dick Barton, a cowboy of the wild west type, is in custody at Edgemont, S. D., accused of murdering his wife's parents, Mr. and Mrs. Tucker, on a ranch near Provo, S. D.

The victims were slain with an axe and the bodies mutilated. Barton's wife notified neighbors who pursued and captured the fugitive at Edgemont depot today while he was waiting to take a train for Wyoming.

A mob of infuriated ranchers is gathering at Edgemont and a lynching is threatened tonight.

## MARINES LOSE LIVES.

HAVANA, March 30.—Third Engineer Charles Hoppe, Second Mate Rudolph Harn and twelve seamen of the Hamburg steamer Albatross, which burned in the central dock fire yesterday, are missing today and it is feared that they lost their lives in the fire or were drowned.

## ATLEY PETERSON DIES OF DROPSY

PROMINENT MAN OF WESTERN WISCONSIN GONE

WAS PROMINENT IN POLITICS

State Railroad Commissioner and Late Candidate for Congress Dead at Soldiers Grove

After an illness of six months' duration, Atley Peterson of Soldiers Grove, one of the oldest settlers in the Kickapoo valley, and one of the best known men in the state of Wisconsin, passed away at his home Sunday night. Death was caused by dropsy.

Mr. Peterson was 61 years of age and born in Sogn, Norway. He came to Wisconsin in 1854 and settled as one of the pioneers in the Kickapoo valley, where he later became the promoter of the Kickapoo Valley railway, now a part of the Milwaukee system.

Mr. Peterson was the founder of the Bank of Spring Grove and its president. He was one of the earliest promoters of the tobacco growing industry and also promoted the hardwood lumber industry and took an active interest in farming.

A close friend and business associate of Governor Davidson, Mr. Peterson was actively interested in politics, and has held many positions of honor and trust. He was state railroad commissioner for four years, was one of the delegates last year to the republican national convention, and was candidate for congressman in the Third congressional district last fall, but was defeated by Congressman A. W. Kopp.

His widow and five grown children survive him. His oldest son, Carl M. Peterson, died two years ago. Peter Johnson of North La Crosse is a cousin to the deceased.

## OPERATION UPON GIRL'S BRAIN

Helga Larsen, the young daughter of Mr. and Mrs. Peter Larsen of 1463 Charles street, who has been suffering with mental trouble since she had the misfortune to be struck on the head with a thrown ball last summer, was operated upon by Dr. Gunderson at the Lutheran hospital yesterday morning. At present the patient seems to be getting along nicely but whether the operation will have the desired effect of relieving the brain trouble is not yet known.

## PRINCES EXCHANGE NAMES BY EDICT

BELGRADE, March 30.—The note of the powers to Serbia, the presentation of which was delayed owing to the Russian minister not having received instructions, was formerly delivered to the foreign office today. The British, French, German, Russian and Italian ministers joined in the presentation. The foreign office reasserted its willingness to abide by the terms of the formula.

Former Crown Prince George and Prince Alexander, his youngest brother, exchanged names today as the result of an edict issued by King Peter.

## MR. JONES, HE'S AN ORATOR FOR FAIR

CANDIDATES ELECTED ON CONTRACT IS HIS "PROFESH"

ORI J. WOULDN'T LOOSEN UP

Frank Allen "Swung" on Him, But Dr. Suiter Innocently Started Him on Swift, Rumbling Way

J. Anthony Chartres Jones left La Crosse underneath a box car yesterday. If you had asked him why, he would have told you loftily that it was a matter of preference, that he liked to travel that way, for far be it from J. Anthony Chartres Jones to admit that unkind fortune had ever dared to force necessity upon him.

Bland, smiling, presumptive, J. Anthony Chartres Jones is pregnant with oratory. Persuasive, compelling oratory—take it from him. True, he admits that there are others, but not many.

Mr. Etc., Etc., Etc. Jones arrived in the city last week with a mission, and straightway presented himself to Ori J. Sorensen. He informed that distinguished gentleman that if he hoped ever to grace the mayoralty chair, he must leave it with J. A. C. J. He would guarantee the election for \$75.

"I talk sixteen languages, living and dead," he is quoted as having told the candidate. "Every word I speak in a campaign clinches a vote. I am an orator, believe me. I sway my hearers as this March wind whisks the feathers on a lady's hat and transforms her mother-hubbard into a directorate."

"Course," he concluded with becoming modesty, "I wouldn't say right out that I've got Bryan faked, but turn me loose and I'll show up Burke Cockran and Paul Mahoney for a pair of Quakers."

Ori couldn't see the \$75. "I'll make it \$50," said J. A. C. Jones with enthusiastic condescension.

"Nix on the \$50," said the canny Ori.

J. A. C. J. dickered again and again, but Ori wouldn't come across. He persisted in blindness to his political salvation. J. A. C. J. finally allowed as how he'd take a quarter for his good will and a friendly word here and there, and when that close fist candidate refused to loosen for even the price of a square, the orator faded away leaving an odor of disgust in his wake.

A Terrible Mistake. But J. Anthony Chartres Jones was no quitter. After feeling out the situation a bit he concluded that Frank Allen was in need of an orator.

"You fellows try and make the voters go to your meetings," he said confidentially to Mr. Allen. "Now I don't," he continued with a lofty wave of his hand. "I go and fetch. I get 'em. I'm there with the cracker box speech. I butt in wherever I see a half dozen fellows together. I mount the bar or a beer keg and when I'm done the gang is ready to eat out of my hand. Leave it to me and you'll be the next city treasurer."

"And all for a paltry \$15 a day."

## LA CROSSE BRICK COMPANY FORMED

WILL OPERATE FACTORY WITHIN SIXTY DAYS

ERNEST J. WEGE INVENTOR

Brick Machines Conceived by La Crosse Man Will be Used in New Industry Here

Under the firm name of The La Crosse Brick company, La Crosse investors will soon begin the manufacture of a new process cement brick in this city. Plans for the new factory have already been made and the first contract has been placed by Schwalbe & Newburg for all brick for their new theater building on Main street.

Ernest J. Wege of La Crosse will be the president and manager of the plant and it will be in operation in less than 60 days. Officers of the new industry are considering several sites, but it was announced today that the plant will probably be located on the leased land of the Chicago, Burlington and Quincy railway, just north of the manufacturing plant of the Segelke & Kohlhaus company.

Ernest J. Wege is the inventor of the new process brick machine with which the plant will be equipped. It was formerly necessary to manufacture cement brick by dry process but this machine makes it possible to do it by a wet process which is cheaper and more satisfactory.

All kinds of glazed, enameled brick and tile will be manufactured, and the plant will be opened with twelve experienced hands. Later the plant will be increased as the business demands. The new firm has not incorporated as yet but is composed of Ernest J. Wege and B. Ott & Sons. The machine rights have been sold to the latter firm by the inventor.

## YOU CAN'T CATCH A COLD, NOT ANY MORE

COLUMBUS, O., March 30.—Colds, the most widespread of all the most dangerous maladies that afflict the human race, yield to a new serum, says Wm. B. Morey, professor of bacteriology in Ohio state university. After years of investigation and experiment on his own wife, who was an almost continuous sufferer from colds, Prof. Morey says he has developed a serum, which injected into the human body, makes it immune from colds until the effect wears off, as in the case of smallpox vaccine. The serum is developed in the same manner as other anti-toxins, by inoculating some animal with the cold bacillus and collecting the defensive fluid which then forms in the animal's blood.

## JUDGE FRUIT UNCHANGED

## HUNS AT WAR WITH AMERICAN MINERS

FIVE MEN SHOT IN BLOODY FIGHT LAST NIGHT

OFFICERS FEAR TO ARREST

Heavily Armed Foreigners Prepare to Move and Another Struggle Is Anticipated

JASONVILLE, Ind., March 30.—One hundred Hungarian miners last evening participated in a battle with American coal diggers at the Bogle mines near here in which five Americans were shot. Today they have been given notice to get out of the county.

Before yesterday's clash began the Hungarians sent their women and children away and today the men are packing up. Several hundred American miners are lined along the road to this city and all of them are heavily armed. More trouble is expected when the Huns come out of their sheds in which they have barricaded themselves.

Fear to Make Arrests.

An automobile filled with officers arrived at the mines at 10 o'clock this morning intending to arrest the Huns on account of yesterday's shooting. The officials of the mining company warned the deputy sheriffs that they had better not attempt to arrest the Huns, who, they say, will surely start another battle. Over 100 rounds of ammunition were discharged when the five Americans fell last evening. The sheds in which the Huns live are riddled with bullets, but as none but the Huns have access to them it is not known whether any of the foreigners have been killed or wounded.

Ordered From County.

The clash occurred when a committee of Americans went to the mines following a mass meeting which had been held here in the afternoon and notified the foreigners to get out of the field.

Without warning, the Huns fired from one of their houses five Americans dropping, while the others who had armed themselves in anticipation of trouble, returned the fire.

A number of Huns are said to have been shot while standing in the doors and windows. A volley of shots from both sides followed and larger numbers of Americans soon arrived.

## IT'S VAN WORMER OF LA CROSSE; BIG ROW ON IN 'FRISCO TODAY

SAN FRANCISCO, Cal., March 30. (Special.)—Jerro Van Wormer, arrested here Saturday in connection with the alleged theft of state's evidence in the Calhoun case, admitted in an interview today that his former home was La Crosse, Wis., where he was connected with a grain brokerage.

## POUREN WINS LONG FIGHT FOR FREEDOM

NEW YORK, March 30.—Pouren's long fight against extradition to certain death in Russia ended successfully this afternoon when he was discharged by United States Commissioner Hitchcock and was escorted by a jubilant throng of friends to the east side. Pouren received the decision calmly. Hundreds of Russian refugees who thronged the corridors of the federal building went wild with joy when the former revolutionaryist walked into their arms.

Pouren had been in the Tombs since his arrest in 1907. He was charged by the Russian government with murder, arson, robbery and other crimes. The defense was that he had taken part in revolutionary uprisings, and that the alleged crimes had been committed in actual warfare. Under the terms of the treaty with Russia, the United States will not extradite immigrants guilty of political offenses.

Pouren was ordered to be extradited last July by Commissioner Shields. His case aroused so much discussion and brought so many thousands to his support that Pouren was able to interest Secretary Root in his appeal and a new hearing before Commissioner Hitchcock was ordered.

## QUIZ HATTON MEN, FIGHT OVER FUNDS

MADISON, Wis., March 30.—The senatorial investigation committee today examined Editor Burroughs of the Fond du Lac Bulletin; James A. Stone of Readsburg and S. H. Cady of Green Bay, all supporters of W. H. Hatton, who distributed small sums during the primary campaign. The anti-Stephenson members, who disagree with the attorney general's ruling that no state funds except those specifically appointed for the purpose can be used for the expense of the investigation committee, are preparing to test the matter in court by means of mandamus proceedings.

## INCREASED TAX ON BEER LIKELY

THIS IS THE LATEST PLAN TO INCREASE THE REVENUE

CAUCUS TO BE DANGEROUS

Party Leaders Do Not Believe it Would be Advisable Owing to the Conflicting Interests

WASHINGTON, D. C., March 30.—An additional revenue tax on beer is in prospect as a new feature of the Payne tariff bill.

So much protest has been aroused by the tariff on tea and the countervailing tariff on coffee, and the demand for revenue has been so forcible that the house leaders have under serious consideration the question of increasing the tax on beer.

If an increase is made it will be either 50 cents or one dollar a barrel. Although the claim was made when the Payne bill was reported that it placed coffee on the free list, this idea has been pretty generally abandoned by members of congress. It was assumed that the threat of a tariff would induce Brazil to repeal its export tax. But it is now said that the export tax is a security for Brazilian bonds and that the country cannot repeal the tax.

No decision has been reached by the house leaders on the question of having a republican caucus but the chances are that none will be held. There is such a division of sentiment among the members caused by conflicting interests of the various districts that it would be risky to bring them together in caucus.

The present intention is to bring in a rule on Thursday cutting off general debate, naming the schedules on which there may be a separate vote and fixing a day, probably April 10, for a vote on the bill.

HE WANTS TO SMOKE THE PIPE OF PEACE

IS OFFERED A FAIR TRIAL

SAYS HE FIRED ONLY TO SAVE HIS LIFE

AN ELUSIVE OLD WARRIOR

Fooled the Pale Faces and Made Them Scamper on Wild Goose Chases

OKLAHOMA CITY, Okla., March 30.—There is an unconfirmed rumor that Sheriff Patty, one of the officers engaged in the Indian hunt at Hickory Ground, and a deputy have been killed in a fight with Crazy Snake's band today.

HENRYETTA, Okla., March 30.—Like a famous olden general, Chief Crazy Snake, having marched up the hill, is ready to march down. From the rocky ravine where the old chief and his nondescript band of Creeks, Seminoles and negro half breeds took their desperate stand in their effort to overthrow Wm. Howard Taft's government, comes the violent wig-wagging of a white flag.

A bit of buckshot, in the chief's leg, added to the rheumatic twinges that more than sixty years in the open, scorning the steam heated ways of the palefaces, have induced, make him less belligerent today than he was when he set the torch to his camp Sunday and retreated to the forests and rocks.

Chief Crazy Snake is ready to surrender.

Seeks Peace Pipe.

Jack Thompson, whose Indian name is Little War Hop, has come from headquarters to Sheriff Odom with a peace proposition. Chief Crazy Snake is anxious to feel the grip of his teeth on the stem of the peace pipe. So goes the message.

"He no want surrender to you," said Thompson to the sheriff.

Then he explained that the chief was ready to give himself up to two soldiers, if they would guarantee fair treatment.

Sheriff Odom is pleased; the soldiers are pleased and the peace terms will be made.

Sheriff Odom assured Thompson that Crazy Snake would be given a fair trial if he would give himself up. Then the envoy rode back to the Indian camp.

Chief Denies Killing.

Thompson told the chief's side of the story of the killing of Odom and (Continued on page 6.)

## TAKES DOWN THE BARS.

WASHINGTON, D. C., March 30.—President Taft today revoked an executive order issued by President Roosevelt in 1906 under which 1,866,000 acres of land in North Dakota had been withdrawn from entry. The land was withdrawn from all forms of entry following a report that it contained lignite coal and that a combination of vested mine interests was trying to get a monopoly of the supply.

A statement given out by Secretary Ballinger today that if the lands are agricultural in character they may be entered under the homestead laws; if valuable because of workable deposits of coal, they may be entered under the coal land laws.

## Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Koot is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Koot, including many of the thousands of testimonial letters received from sufferers who found Swamp-Koot to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Koot, and the address, Binghamton, N. Y., on every bottle.

## Sports of all Sorts

### MORIARTY INJURED IN TIGER PRACTICE

STAR THIRD BASEMAN MAY BE OUT OF GAME FOR TIME

### WELL KNOWN BY LOCAL FANS

Was Star Shortstop With the Freeport Club of the W.-I. League When in Its Infancy

SAN ANTONIO, March 30.—Third Baseman Moriarty was out of the Tiger practice yesterday with an injury that may keep him out of the game for two months if the worst fears are confirmed. Moriarty was hit on the arm by a thrown ball on Sunday and today the member was so sore that he could hardly move it. Trainer Tuthill fears there is a small fracture of the bone.

**Played With Freeport.** Moriarty is well remembered by the local fans as having played with Freeport in the first years of the Wisconsin-Illinois league. He was always a popular player and when he played in the W.-I. league he was the best shortstop in the league. After he left Freeport he went west and later turned out, playing with the California outlaw league where he made good rapidly. He was reinstated and bought by the New York Americans last year. He made good from the start and was purchased by Manager Jennings who is well pleased with his find. He was expected to take an important place in the fight for the pennant this season.

### DAYS OF JOE GANS ARE ALL NUMBERED

DENVER, Colo., March 30.—Joe Gans, the "old master," has not long to live, according to a statement today by Charley White, the famous referee. He declares Gans is in the last stages of tuberculosis and that the colored fighter has fought his last ring battle. Gans, it is said, developed consumption right after he fought Nelson at Goldfield.

### WOULDN'T CHEAT HIS CLUB OWNERS

PITTSBURG, Pa., March 30.—Sam Brown, former catcher of the Boston Nationals, but last year with the Toronto Eastern league team, has refused to sign for the season, saying he was too ill to earn his salary and did not "want to cheat." When with Boston Brown voluntarily had his appendix removed to insure better playing.

### CORBETT FORWARDS \$1,000 AS FORFEIT

CHICAGO, March 30.—James J. Corbett today forwarded to a New York newspaper an additional forfeit of \$1,000 to bind a match with Jack Johnson, heavyweight champion. The actor-fighter announced that he would go to New York April 19 to prepare for the fight and he is so confident it will take place that he even announced that tentative arrangements had been made to stage the bout at Melbourne, Australia. Corbett does not think Jeffries will ever fight the negro.

"I am only 75 per cent as good as I was ten years ago," he said, "but I'm good enough to whip Johnson."

### LANGFORD PUTS MORRIS TO SLEEP

NEW YORK, March 30.—Sam Langford, the Boston negro, still has his famous sleep producer with him. He put the punch into action against Morris Harris, the negro heavyweight, and the latter took the count in the seventh round last night. Harris was game while the fight lasted.

### KETCHEL COVERS JOHNSON'S FORFEIT

HIS MANAGER, WILLIS BRITT, POSTS \$5,000 FOR MATCH

### SUM DON'T BOIHER JEFFRIES

Big Fellow Says He Don't Care if the Negro Posts \$50,000—Will Fight When He Gets Ready

NEW YORK, March 30.—Jack Johnson's \$5,000, which he posted as soon as he arrived in this city yesterday for a match with Jim Jeffries, or any other fighter, did not go long uncovered. Willis Britt, manager for Stanley Ketchel, middleweight champion, covered Johnson's forfeit today.

"Billy" Delaney, acting for Al Kaufman, is also trying to clinch a match with the negro champion. Johnson flunked out of one match with Ketchel, but Britt believes that he has now nailed the negro. Jim Coffroth, the California fight promoter, will bid for the match. Britt would like a finish fight with Johnson and it is likely that Coffroth's offer will be the one accepted if the fight is arranged.

**Jeffries Laughs.** BOSTON, Mass., March 30.—Jim Jeffries is not at all disturbed today by Jack Johnson posting a \$5,000 forfeit in New York. "I don't care if he has posted \$50,000," said Jeffries. "I have nothing to say. When I get ready to fight, it won't be because Johnson has put up money."

### SCHEDULE OUT FOR HAND BALL TOURNAMENT

### ATTELL IS ANXIOUS TO FIGHT MORAN

NEW YORK, March 30.—Abe Attell, the featherweight champion, has posted \$500 to fight Owen Moran, the great little Englishman, at 124 pounds, weigh in at 6 o'clock today of the match. Attell is willing to let the \$500 ride as a side bet too.

"I am anxious to fight Moran ten rounds here in New York, as I want to prove that I was his master in both battles held on the Pacific coast," said Moran. "If Moran wants to increase the size of the side bet I will be on the job with any amount he desires," he added.

### MORNINGSTAR WILL EET CUTLER TODAY

NEW YORK, March 30.—Harry Cline will have another opportunity to get out of the maiden class in the international 18.2 billiard tournament when he meets Louis Cure, the French expert, this afternoon. The Philadelphia player has already lost four games. In the evening, Ora Morningstar, leader of the tournament, will clash with A. G. Cutler, the Boston expert.

### ANOTHER SIX DAY BIKE RACE STARTED

ATLANTA, Ga., March 30.—Seven two-man bicycle teams, composed of some of the best riders in the world, started at 2:30 o'clock yesterday afternoon at the Velodrome track here on a six day race of forty-eight hours, eight hours each day. The track is twelve laps to the mile and the eight hours daily racing will start at 2:30 each afternoon throughout the week.

### WOLGAST MEETS PICATO TONIGHT

LOS ANGELES, Cal., March 30.—A gruelling fight is expected tonight when Ad. Wolgast, the Milwaukee wonder, and Frank Picato meet at Tom McCarey's club here. The fight is scheduled to go ten rounds. The two men met several weeks ago when Wolgast got a shade the better of it.

A fellow always wears a bigger hat just about the time he graduates from college than at any other period of his life.

### Dish Washing.

Many housekeepers dread dish washing, but if they would go about the task in a neat, systematic way, it would not be half so disagreeable. The requisites are a convenient sink of the right height, table room for soiled and clean dishes, an abundance of towels and hot water, and a second dishpan of warm water for rinsing the dishes. Prepare the dishes for washing by scraping them as clean as possible and rinse the ones that are most soiled under the hot or cold water faucets before putting them in the dishpan. Dissolve a teaspoonful of Gold Dust washing powder in the first water and after the dishes have been washed clean, rinse in clear water and dry. A knowledge of the composition of foods is useful in dish washing. For example gelatine, white of the egg, etc. should be removed from dishes with cold water, while greasy foods require hot water.

### MAHMOUD THROWS OLSEN TWO STRAIGHT

INDIANAPOLIS, Ind., March 30.—Yussif Mahmoud, the terrible Turk, whose shoulders, it is said, never have been pinned to the mat, won two straight falls from Charles Olsen, the local heavyweight wrestler, last night, but not before he had the scare of his life. Yussif got the first fall in 47 minutes with a deadlock, and the second in 27 minutes with a combination croch and half nelson.

### ATTELL BUYS FLAT IN NEW YORK CITY

CINCINNATI, O., March 30.—Abe Attell has added a New York flat building to his list of holdings and declares that he will make his home in the metropolis in the future. His father and mother will reside in San Francisco, but there is no money out that way for him, and as a matter of consequence he has pitched his tent in New York.

Attell declined definitely to locate the site of the property, but said that it was in the neighborhood of the Great White Way and that a portion of his money made in the fight game had already been paid on it.

Attell looks bad and says he will follow Corbett's advice and take a long rest soon. Corbett told the pugilist he was fighting too much without the proper rest.

### FIGHT FOR THE SPARTA JUDGESHIP

## SCOTCH WOOLEN MILLS CO.'S EDITORIAL

There's no man in this town, however frugal he may be, who's got to wear ready-made hand-me-downs on the plea that they cost less than made-to-order clothes.

Our prices for a suit that is made to your individual measure, from your own ideas as to style, are no higher than asked for the machine made stuff, put together haphazard for a clever salesman to dispose of.

You surely wouldn't buy cold storage fish if you could go out and catch them alive.

Then why should you buy cold storage, out-of-fashion clothes when you can get good live ones here, guaranteed to fit you and look well as long as you wear them, for no more money?

The fact of the matter is, most men are too careless about their clothes—they bite at a good display window too easily, and get hooked and separated from their money before they know it.

They regret it afterwards, of course.

It is these men that we want to get into our store.

We want to show them the fabrics in the piece, the linings and the trimmings, and then a made up garment from off the racks.

If you'll take the trouble to accept our invitation, you'll thank us later for putting you next to the genuine article.

And our reward will come the next time you want clothes.

Yours truly,

### Try It on The Hills

Test this car at half speed on a hill or sand road where power and every ounce of it is needed. Notice how steadily and powerfully it pulls when running slowly under load. The capacity of the Rambler engine for doing this extra work is most noticeable at low engine speeds. This is because of the offset crank shaft.

## Rambler

The Car with the Offset Crank Shaft

All that power which in other engines is lost through friction on the bearings and cylinder walls, is added to the driving force by the Rambler offset crank shaft. It reduces friction, eliminates hammer on bearings, gives more power. The straight-line drive delivers the power direct and with least frictional loss to the rear axle. Let us demonstrate these features and the silence and comfort of this car. Let us call at your home, and take you to your place of business some morning in a Rambler.

### TAFT FOR FAIR TARIFF

WASHINGTON, D. C., March 30.—President Taft has assured a num-

ber of congressional callers that he would use all his influence to secure a reduction in the tariff on the necessities of life.

Ollie James (Dem., Ky.) spoke the Payne bill today. "When all is done and the bill is passed," he said, "the trust can say 'We have looked the Payne bill over and, thank God, there is loot enough for us all in it.'"

## THE HOME LIFE

of La Crosse families, with its surroundings of comfort and refinement, is the subject of much favorable comment by visitors. Domestic comfort and happiness are dependent, however, not only upon a wholesome environment, but even to a greater degree upon the healthy condition of the members of the family. Eminent physicians state that people nowadays eat too much meat for the sedentary lives they lead. It is easy, in a perfectly natural way, to drop off heavy meat eating if you use MARVEL Flour in your baking.

In the process of scientific milling, MARVEL Flour retains every nutritive element of good, sound wheat, and MARVEL Flour made into bread contains every food requirement necessary for the nourishment of the human body.

## THE CITY ELECTION

The determination of Mayor Wen-  
del A. Anderson not to become a  
non-partisan candidate for re-elec-  
tion at the solicitation of a large and  
influential body of citizens, leaves  
the field to the party nominees of the  
respective parties. Ori J. Sorenson  
seeks the election as head of the dem-  
ocratic ticket, while Dr. Friend Sui-  
ter is the republican aspirant. Both  
men are well known in every section  
of La Crosse, and as no powerful in-  
fluence between them has been raised  
by their platforms, or as yet developed  
in their public expressions, the bat-  
tle starts as a duel of personalities.

As the campaign proceeds, other  
reasons for favoring the one over  
the other may appear, and of such  
development the voter can be depend-  
ed upon to take cognizance. At this  
writing the only really sage advice  
to be offered is for voters to minimize  
the political influence as much as  
possible, and to vote for that man  
whom they believe will give this city  
the better administration.

One feature which seems bound  
to loom up as a factor in the coming  
election is the feeling of democrats  
that something must be done to

wrest their party from the little co-  
terie of professional office holders  
who have captured it and are hold-  
ing it for ransom. These gentlemen  
have divided somewhere about \$60,-  
000 between salaries from the city  
treasury among themselves, and they  
give no evidence of any intention to  
let go.

Indeed, the recent primary is con-  
clusive evidence that they not only  
will not quit as long as they can use  
the prestige of office to secure re-  
peated renomination, but that there  
is no way within the party to defeat  
them. Their partisans, loyal demo-  
crats who have supported the tick-  
ets in the past without even getting  
the crumbs from the table, are said  
to have concluded that the only way  
to defeat them is to turn to the sup-  
port of their republican opponents,  
by throwing a few votes to whom the  
life tenure of a few democrats can  
be stopped.

It is not strange that men who  
have been regular supporters of the  
democratic party for years, and who  
have repeatedly seen their own and  
their friends' just candidacies defeat-  
ed, should revolt. They know they  
must either defeat these barnacles  
now, or deed the offices to them  
and their heirs forever. As an  
English king said of Spain's claim  
to the New World after the discov-  
ery by Columbus, they "would like  
to see the clause in Adam's will enti-  
tling a few men to divide all the  
spoils of party between them."

That this natural feeling, founded  
in self preservation, is bound to ex-  
ert a decisive influence on the out-  
come of the election, is more than  
likely. The party whose members  
blindly submit to pulling the chest-  
nuts out of the fire for a few who  
have already been rewarded beyond  
their deserts is on the down grade.  
It cannot retain its dominance in its  
field if it cannot dominate its own  
affairs.

The only justification for devia-  
tion from this rule is in case of an  
official peculiarly fitted for his of-  
fice. Even Theodore Roosevelt de-  
clined to accept a renomination when  
he knew a nod would make the con-  
vention of his party hurt it at him.  
Democrats see no evidence that  
these offices cannot be as capably  
filled by other democrats. They say  
the wisdom and integrity of the party  
is no monopoly in the hands of  
present incumbents.

## SCHNELL'S CONDUCT BAD

Alderman Schnell is a candidate for  
commissioner of the board of public  
works upon the democratic ticket.  
He apparently has no conception of  
the obligation which a candidate  
owes his party. We say this because  
he has become an active party to an  
effort to injure the candidacy of  
James T. Day, a fellow candidate on  
the democratic ticket.

To Mr. Schnell we have this to say:  
The democratic party cannot honor-  
ably consent to his election as long  
as he fails to do his duty of loyally  
supporting the rest of his ticket. That  
is a vital rule of partisanship.

We do not like to stir up the naus-  
which the unfortunate conduct of  
Mr. Schnell has created, but the wrong  
is one that he should promptly right.  
In a selfish appeal to the vote of a  
certain class of voters he has invited  
the strenuous opposition of all other  
classes. He should be warned in time,  
and do his best to rectify the injury  
he has done. He cannot defeat Mr.  
Day. The friends of Day can easily  
defeat him. As it stands at present he  
is the weakest candidate on the tick-  
et, because he comes before the pub-  
lic without evidences of his qualifica-  
tion for the position he seeks.

## POSTOFFICE HINTS

In Saturday's issue of The Tribune  
there appeared a stenographic re-  
port of an address recently delivered  
to the students of the high school by  
Postmaster W. B. Tscharnier, in  
which much practical information  
about how to use the mails was fur-  
nished. That Mr. Tscharnier's talk

was a meritorious one was attested  
by comment of Principal Benezet, al-  
so published. But we find no more  
timely and emphatic suggestion of  
the value of Mr. Tscharnier's article  
than is contained in an editorial by  
the Chicago Tribune, in which that  
paper calls attention to the host of  
simple little things about the mails  
that the average person should know,  
and don't know, a circumstance  
which has induced the Chicago paper  
to run daily a department made up  
of hints about the use of the postof-  
fice. A portion of the editorial fol-  
lows:

The postoffice department is the  
one that comes nearest to the indi-  
vidual citizen. Millions use its facili-  
ties who never are brought into any  
relationship with the work of the  
secretaries of state, war or navy, for  
example. The system seems simple. A  
stamp of a certain value is placed  
upon a letter or a package. The mail  
box is near at hand for the reception  
of the article. There is absolute  
confidence on the part of the citizen  
that the government will do the rest.  
How the agents of the government do  
their part is seldom considered.

Experience has led to the formu-  
lation of many rules about mail mat-  
ters. Certain articles are debarred  
from transmission. Others must be  
prepared for the mail in special  
ways. There are classifications of  
mail matter with variations in post-  
age. There are attempts to defraud  
the government and citizens through  
the use of the mails. As a conse-  
quence there are people busy all the  
time trying to protect government  
and citizen from such frauds. The  
honest man must assist the postoffice  
authorities by following established  
rules regarding the wrapping of ar-  
ticles.

Occasionally some one publishes a  
story about the dead letter office. The  
astounding list of "articles found  
loose in the mails" adds to the evi-  
dence of carelessness. The "daily  
postal hint" in The Tribune is a  
helpful school of instruction. It de-  
scribes simple process of letter send-  
ing. The information given is valu-  
able. The advice is worth taking. The  
"hints" are prepared by one who  
knows. They ought to be read by ev-  
erybody and followed.

Frank Allen, republican candidate  
for city treasurer, is a man of  
strong individuality and clean-cut  
ability. His opponent can lay no claim  
to any form of efficiency with which  
Mr. Allen is not endowed. Mr. Allen  
enters the fight with no purpose to  
charter the office for life. George  
Young has been a fair average  
treasurer. While we can think of no  
particular in which his administra-  
tion is distinctive, he has done his  
work honestly and well. But he has  
done it so long that many people  
think he deserves a vacation.

It was the year A. D. 2009.

Rip Van Winkle awoke again, and

rubbed his eyes.

A bellboy handed him an almanac,

and he rubbed at the date.

"Say, is Joe Sieger still city

clerk?" he asked wearily.

"Yes," said the bellhop, for it was

the day before election.

Rip Van Winkle sighed again, and

turned over for another 100 years

nap.

For Rip Van Winkle was a demo-  
crat.

She Did.

One day, while performing for the

inmates of an orphan asylum, Kel-  
lar, the magician, walked up to a

sedate little girl in the audience and

asked, "Will my little lady please

examine this handkerchief?"

The blushing child did as she was

told.

"Now," proceeded the conjurer,

"we will see if we can find in it

some candy," and, slowly rolling the

handkerchief into a ball, he held it

out to the small maid.

"Please blow on it," he said.

The next moment there was a

shriek of laughter from all sides.

The child had taken the request lit-  
terally and had noisily performed the

habitual rite.—Success Magazine.

The Truth for Once.

"No one understands me!" he

groaned, "no one on earth."

It is the old story wrung from

many a tortured youthful heart. The

sufferer is generally mistaken, but

the pain is no less poignant. Yet in

this instance the man's complaint

was true. Nobody on earth could

understand him.

For he was an announcer of

trains at the Union depot.—Cleve-

What Charlie Had.

Several of the scholars had re-  
turned to Sunday school after beingabsent some weeks on account of ill-  
ness. "I had the measles," said one

little girl. "I had the mumps," said

another. "So did I," said a third.

The superintendent heard them and,

addressing a curly headed boy, said:

"Well, Charlie, you were absent,

too. What did you have?"

Charlie's face flushed. He thought

a moment and then snuffed out in high

treble, "I had a little brudder!"—

## A Ready-Made Verdict

Fargo, N. D., once boasted a com-  
posite postmaster and coroner. He

was called one day to give his ver-  
dict upon the case of a stranger who

had been the victim of a fit on the

main street. As the man was known

to nobody, he was hurried to the

much-prized "City hospital." There

the case was diagnosed as appendi-  
citis, but when the operation took

place the attending surgeon discov-  
ered that the patient had been pre-  
viously relieved of his appendix. The

doctor endeavored to retract his steps

but the strange man died from the

effects of the operation.

## THE MEASURES OF MEN DIVERSIFIED

WHAT HE CONTRIBUTES TO THE WORLD'S BETTERMENT

THIS IS THE REAL VALUATION

Rev. Fogg of North Side Church Concludes Series of Sermons to Young Men

Rev. G. W. Fogg delivered the last of a series of sermons to young men at the Tabernacle Baptist church Sunday night on the general subject, "A Man's Value." Beginning next Sunday the pastor will deliver a series to young women. The pastor spoke as follows:

"There are a number of ways of measuring young men. His self estimate is very important, as men do not often have a value set upon them higher than they estimate themselves. A family may place a certain value upon a man because of his character or his earning capacity. Society also places a value on him, because of the amount of value he contributes to it to make it better. God also has a value on man, importance. The only real value way a man can be judged by his fellow men is from the altruistic standpoint—the amount of good he contributes to uplift others, either by his wealth, his achievements, or his character.

"The average Chicago man at the age of 25 has been estimated by Hollis W. Field to have cost his parents or someone else \$2,000, though he has obtained only a high school education. The earning capacity of the average man under our system of labor is from \$600 to \$1,000 a year, and if a corporation through negligence kills a man, even though he be a bank president earning \$25,000 a year, \$10,000 is all that the family can recover as damages.

"But it is not for the financial value that we admire a young man; it is because of his possibilities. Young men are the material from which republics and kingdoms are built. There is nothing which he by the aid of energy and science cannot do. A Kansas student has announced that he expects to cross the strait between the milkweed and that people can have strawberries and cream from the same plant. He may fail in his enterprise but he has at least learned that man brought wheat from wild rice and that the locomotive evolved from the coffee pot.

"The main elements of worth are blood, body and mind. Much depends on blood. Parents are largely responsible for the success of their children. There are millions that have been made physical and moral paupers by their ancestors who have doomed them to be hewers of wood and drawers of water. Spongy brains and weak nerves and cotton string backbones do not make men. So the bodies must be cared for with great care as it is the temple for the indwelling of the soul. But the crowning glory of man is his mind. In this he excels the lower animals and claims the likeness of his Maker. God intended that man should make his living by his mind harnessing the forces of nature, or else He would have made him with legs a mile long instead of the ability to make a locomotive, and muscles strong enough to carry freight cars across a continent.

"The world progresses by means of its dreamers, and it is thus that mankind is blessed. Each achievement in art, science, or literature is first worked out in the mind of some man. Every work is first a thought. All the great men have been dreamers, as well as business men.

"To achieve greatness man needs not so much the raw material as he needs the pattern after which to follow. Cathedrals, ships, palaces—are built after a pattern, though inventions are first discovered by accident. Man needs a pattern in the building of true manhood. And there is only one perfect pattern. This pattern, Jesus Christ, man must follow if he would possess the eternal values that God requires to keep him from going away sorrowful."

### DOES YOUR SCALP ITCH?

Are Your Hairs Dropping One by One?

If your scalp itches you are doubtless suffering from dandruff. The dandruff germ is digging up your scalp in little flakes, called dandruff and sapping the life of the hair bulb. No hair preparation that is a mere hair stimulant and tonic will cure dandruff, because it won't kill the germ that causes the trouble. Newbro's Herpicide is the latest scientific discovery; and it will kill the dandruff germ. Destroy the cause, and you remove the effect; kill the germ and you will have no more dandruff, falling hair or baldness. Sold by leading druggists. ## NEGRO TRIES TO WRECK "Q" TRAIN

IRON AND JUNK PILED UPON RAILS NEAR DE SOTO

FLEES WHEN MEN APPROACH

Stearns Boys of That Village See the Attempted Crime—Police Seek Strange Darkies

Way freight No. 94 on the Burlington due here about 6 o'clock in the morning, would have been wrecked yesterday morning but for the fortunate presence of the two Stearns boys of De Soto.

While walking along the track about three miles north of De Soto, they saw a colored man placing a lot of junk and a large piece of iron on the rails which if it had not been removed, would have demolished the train. The negro, when he saw the men approaching, took to his heels and disappeared in the woods in the vicinity.

The attempted wrecking was reported here and the local police are watching for suspects. One negro was apprehended here, but was released upon showing that he had not been in the vicinity of De Soto. Another suspect answering the description given by the Stearns boys is held at Stoddard awaiting an investigation. The local police are still on the lookout for any suspicious and unknown negroes, as it is thought that the perpetrator of the attempted wreck may come in this direction.

## A PRETTY SCHOOL TEACHER EXTORTS

TRIES TO HOLD UP BANKER, IT IS ALLEGED

GIRL IS SHOT BY POLICE

Went to Appointed Spot and Ran With Bogus Swag—A Lover in the Game

WASHINGTON, Ind., March 30.—Mrs. Zella Stringer, formerly a highly respected school teacher, lies dangerously wounded in the county jail and accused of an alleged sensational attempt at blackmailing Nathan G. Read, president of the Washington National bank. While removing a decoy package placed by Read where a letter ordered it to be left, Mrs. Stringer was surprised by officers. The woman started to run and was shot down. Mrs. Stringer is accused by the police of writing the following letter which she denies:

"Nathan G. Read: Dear Sir—I am in need of money and you will put \$30,000 at the east gate of the high school building on the north side of the post at 8 o'clock tonight. After you leave the money, go down Walnut street and go quick. I have recently bought one gallon of nitroglycerine and unless this is done, I will blow up your home, that of your son, Louis, and the National bank, and if you fail to do this, or if any of the cops are around to watch, this will be a sorry day for you.

(Sgd.) "One Who Means Business." Mrs. Stringer denies that she wrote the letter. Her explanation is that a man whose identity she refuses to reveal, met her yesterday afternoon and offered her \$5 if she would get a package that was left at the place last night. She consented. At midnight, the police arrested John Sparks, son of John T. Sparks, who committed suicide in Terre Haute last week. Sparks is alleged to be enamored of the Stringer woman.

When Read received the letter he consulted the police and agreed to place a box full of stage money at the high school gate, where the officers, hiding nearby, shot her down when she started to run away.

If a man should ever get enough money to support his family in all they want it would be just his luck to have another one to support.

Many a self made man expects his tailor to make the most of him.

## SAYS LAWYER LED INDIANS TO FIGHT

ST. PAUL, Minn., March 30.—A Washington attorney of prominence is responsible for the present trouble in the Creek Indian nation led by Crazy Snake, according to Tams Bixby of St. Paul, who for ten years was commissioner for five of the tribes of this nation.

The Washington attorney is said to have agitated Crazy Snake and his band for years by urging them to insist upon the government's observance of their rights in returning to the first treaty with the tribe, which insured them the lands in the Creek district as communal property "so long as water runs and grass grows."

And the attorney has been paid handsomely by the Indians through the continual titling among them for this purpose. It is probable now that the disastrous result of his interference may lead the government to punish him.

## NO COAST TRAINS TILL NEXT FALL

La Crosse officials of the Milwaukee road have received an intimation that the line will not run through trains to the coast this coming summer as was anticipated. Several reasons are given for the change in plans.

The original hope and intention of the leading officials was to have the extension completed and in shape that the Milwaukee could compete with other trans-continental lines for the Seattle fair business during the Alaska-Yukon exposition, but it is now realized that to inaugurate such a policy would be dangerous practice. The line is newly built and the roadbed will settle during the climatic changes and will make fast passenger traffic almost impossible with any degree of safety. Unless the Milwaukee can offer as fast a schedule as the other competitors they will like-

LAND SEVERAL NEW PLAYERS FOR TEAM

ROONEY RETURNS FROM HIS CHICAGO TRIP

LA CROSSE MAY GET HARMES

If He is Sold La Crosse Has the First Option; League Meeting May be Held Sunday

President Henry Rooney returned from Racine and Chicago where he met Manager Safford and they succeeded in landing several new players of considerable promise. While they could do nothing at Racine they were given the first chance at Catcher Harms in case he is disposed of.

The new men secured are Allen Black, a promising third baseman, who has been playing semi-pro ball in the city of Chicago; Joe Kelly, a first baseman of one of the Chicago semi-pros; a pitcher by the name of Lakeoff who played in the Michigan State league last season. He is a good man and comes well recommended; George McDonough, a catcher, who has been playing semi-pro ball around Chicago, and Tom McDonough, a semi-pro outfielder of Chicago.

Meeting May be Sunday  
President Elliott will wire Superior this afternoon and if their president, Fred Russell, who has been in Chicago on business, can be present the league will meet at St. Paul next Sunday. There are several matters of importance that will be taken up but the most important will be the question of a schedule. Mr. Elliott has several of these schedules that will be considered and changes that are desired by the directors will be made at this meeting.

Superior Prospects  
Reports from Superior say that the club there is getting along fine, and the men are raising money every day with which to finance the team during the coming season.

## CRAZY SNAKE IS NOT SO CRAZY NOW

(Continued from page 1.)

Baum Saturday. Crazy Snake, the  
envoy, was in the cabin when the  
deadly firing occurred. The chief  
even admits that he took part in it,  
and that he fired his own rifle at  
the officers. But, he says, he shot  
in self defense.

It was Sheriff's Odom's son who  
was killed Saturday when the clash  
occurred and the sheriff was moved  
as Thompson related the chief's so-  
lemn declaration that he had not killed  
the officer's son and that he was  
grieved that the killing had occur-  
red.

"Him no shoot white man's son.  
Him no shoot till had to," said  
Thompson.

### Forced to Fire.

He declared that the deputies rode  
up to the house and opened fire and  
the bullets pierced the thin walls of  
the cabin endangering those within.  
It was then, he said, the Indians in-  
side pushed their rifles through the  
windows and fire at the posse that  
had come after them. It was not  
until the soldiers were put on their  
track and the old chief feared that  
he would be killed and that his hand  
would be wiped out that he retreated  
from his position burning his camp  
and making for the ravine where he  
has since camped.

Thompson also said that the In-  
dian house burned on Monday, was  
fired by the soldiers and not by the  
Indians as was reported after the  
skirmish had occurred. A number of  
scouts visited the house and found  
no traces of a dead body. It was re-  
ported that an Indian had fallen and  
was burned in the house.

### Find No Body.

The deputies believe that an In-  
dian was found and carried away by  
his companions.

The house that was burned is said  
to have been the property of Crazy  
Snake.

### Foiled Palefaces.

At daybreak, before the message  
came, the militiamen who were re-  
ported to have surrounded Chief  
Crazy Snake last night were still  
hunting for the warlike brave, and  
his followers. With old time Indian  
craftiness he had succeeded in hid-  
ing himself in the fastnesses of the  
hills and the soldiers, following the  
trail of first one little band and then  
another failed to track the chief and  
the main body of his band to their  
hiding place.

Crazy Snake, old Indian fighters  
say, showed himself a good Indian  
warrior. He likes delay and false  
trails and had succeeded in outwit-  
ting the soldiers.

### People Still Fear.

Pierce, the town nearest the place  
where the Indians have been camped,  
is still deserted today. The resi-  
dents of the town left after dark last  
night and they have not returned yet,  
in spite of Crazy Snake's offer of sur-  
render.

Soon after the white men living  
there had disappeared in the woods,  
going in the direction of Checotah,  
twenty Indian horsemen rode through  
the town. The Indians were seen  
later on the road outside the village.  
The white men rode through the  
woods and the Indians apparently  
made no effort to follow them.

Late last night a house west of  
Pierce was burned. It is thought the  
fire was started by the Indians.

## MR. JONES, HE'S AN ORATOR FOR FAIR

(Continued from page 1.)

"I don't need the money, but as I'm  
laying over for a week in La Crosse  
I can afford to work dirt cheap."

"Mr. Allen expressed himself as  
averse to spending money in politics,  
and drifted back to his hotel. A few  
moments later the orator slipped into  
the buffet, and failing to recognize  
in the proprietor the republican can-  
didate for city treasurer, he said:

"Excuse me, pard, but I'm called  
here to deliver some political spec-  
ies for Mr. Frank Allen. I'm a little  
short today, but I've got a good  
thing. Couldn't you slip me over a  
beer?"

Then and there J. Anthony Char-  
les Jones learned that there was  
one orator beside William Jennings  
Bryan who had the distance flag on  
him. What Frank Allen said was  
too picturesque for publication, and  
what he did left its imprint upon the  
spot which mama's slipper seems to  
imagine is the solar plexus. Skidoo  
for J. A. C. J.

### Discretion Better Part.

But patience was a virtue with J.  
A. C. Jones. Musing that perhaps  
the worst was yet to come, he sought  
the clergy office of the cheerful Dr.  
Friend Suiter, and there told his lit-  
tle romance.

"That reminds me of a story," he  
gan "Doc."

"Bang! Crash! Thud! Out the win-  
dow, taking sash and pane in his  
precipitous exodus, went J. Anthony  
Charles Jones. Down the street he  
fled, hatless, hair a-streaming, nos-  
trils distended in a mighty terror. A  
freight was just pulling out of the  
C. M. & St. P. yards, and with a  
headlong plunge J. A. C. J. took to  
the bumpers.

"Matt!" said "Doc. "Fetch around  
the car. I'm going down to see Bert  
Bleckman."

## BEST MEDICINE FOR WEAK NERVES

A Wisconsin Woman Who Is  
Enthusiastic About the Re-  
medy That Cured Her.

Why are nervous people invariably  
pale people? The answer to that ques-  
tion explains why a remedy that acts on  
the blood can cure nervous troubles. It  
explains why Dr. Williams' Pink Pills  
for Pale People are also for nervous  
people.

It is because of the intimate relation  
between the red corpuscles in the blood  
and the health of the nerves. The ner-  
vous system receives its nourishment as  
well as its medicine through the blood.  
Let the blood become thin, weak and  
colorless and the nerves are starved—the  
victim is started on the road that leads  
to nervous wreck.

Mrs. F. Bell, of R. F. D. No. 13,  
Brookfield, Wis., suffered with nervous  
prostration until she used the tonic treat-  
ment with Dr. Williams' Pink Pills.  
The cure the pills effected in her case is  
explained by their direct action on the  
blood. She says:

"I was left in a very nervous condition  
after a severe sickness. I was so weak  
that I could hardly walk without stum-  
bling. My illness affected my stomach  
so I had but little appetite and could not  
retain food. I did not have a particle of  
color and kept losing in weight until I  
was a shadow. I think my blood was  
turning to water. I would get so ner-  
vous at times that I could hardly con-  
trol myself. My sleep was broken.

"The doctors called my illness ner-  
vous prostration. I grew worse under  
their treatment and the medicine they  
gave me was so strong that I was finally  
unable to retain it. An uncle advised  
me to try Dr. Williams' Pink Pills and  
after taking a few boxes I noticed I was  
getting stronger. I continued with  
them until cured. Since taking Dr.  
Williams' Pink Pills I have been in good  
health and I certainly think they are the  
best medicine for weak nerves. I hope  
my statement may be the means of  
bringing the attention of other sufferers  
to Dr. Williams' Pink Pills."

If you have weak nerves send today  
for a copy of our booklet on the home  
treatment of nervous disorders. It is free.  
Dr. Williams' Pink Pills are sold by  
all druggists, or sent, postpaid, on re-  
ceipt of price, 50c. per box; six boxes for  
\$2.50, by the Dr. Williams Medicine Co.,

## TRY TO MURDER AND BLACKMAIL PRIESTS

DES MOINES, Iowa, March 30.—  
Following the sensational arrest yester-  
day of Andrew Ballentine, charged  
with creating a disturbance at St.  
Ambrose church when he attempted  
to reach a priest at the altar, comes  
the statement today that a plot to  
assassinate Rev. Father M. Flavin of  
that church was frustrated. Sim-  
ultaneously was revealed what is be-  
lieved to be an attempt to blackmail  
Rev. Father Romanelli of the local  
Italian Catholic church. Two men  
approached his home and are said to  
have threatened him. The priest  
grabbed a revolver and drove the  
men away.

## UNWRITTEN LAW SAVES MURDERER

DENVER, Col., March 30.—The  
unwritten law today saved Jno. Cra-  
dlebaugh from the gallows. A jury  
which heard the evidence against him  
in his trial on charge of murdering  
Jno. Walton on a downtown street  
in this city, today returned a  
verdict of not guilty.

Cradlebaugh followed his wife and  
Walton from Wallace, Idaho, his  
home, and killed Walton on sight  
here. Both men were past grand mas-  
ters of the grand lodge of Odd Fel-  
lows of Idaho.

### BOOTH STILL HOPES

LONDON, March 30.—Gen. Booth  
returned to London today from his  
tour of the continent still hopeful  
that he will be able to get in a foot-  
hold for the salvation army in St.  
Petersburg.

"My Mission to establish a branch  
of the army in the Russian capital  
failed," the general explained, "on  
account of the authorities' inability  
to understand the army methods.  
They suspected that the army would  
in some way promote disorder."

## DEMAND ROADWAY OPEN TO TRAFFIC

NORTH SIDE PROPERTY OWNERS  
FILE PAPER TODAY

### MAY NAME A COMMISSION

Chairman William Wolf of the Town  
of Campbell and Members of  
Board Served With Notice

Residents of the North Side today  
through Sheriff William Duncan  
served notice upon Chairman William  
Wolf and members of the town board  
of the town of Campbell, demanding  
that the road between the abattoir  
and the North side which Wolf arbi-  
trarily closed, be reopened to traffic.  
The petition sets forth that the  
township had no right to close the  
road and asks that Wolf comply with  
the law, as expressed by the attorney  
general in his communication to the  
board of supervisors.

This decision was to the effect that  
where a road entered a village or  
city from a township, it could not be  
closed without an agreement by a  
joint petition, and ratified by a joint  
commission.

In case Chairman Wolf fails to  
heed the petition for the reopening  
of the road, Judge Brindley will ap-  
point a commission of twelve men to  
settle the dispute.

The Lured Glow of Doom  
was seen in the red face, hands and  
body of the little son of H. M.  
Adams, of Henrietta, Pa. His awful  
plight from eczema had, for five  
years, defied all remedies and baffled  
the best doctors, who said the  
poisoned blood had affected his lungs  
and nothing could save him. "But,"  
writes his mother, "seven bottles of  
Electric Bitters completely cured  
him." For Eruptions, Eczema, Salt  
Rheum, Sores and all Blood Disor-  
ders and Rheumatism Electric Bitters  
is supreme. Only 50c. Guar-

North Side and Kabat's hall on the  
South Side.

## HE FACES CHARGE OF AN 1877 MURDER

INDIANAPOLIS, Ind., March 30.—  
Gov. Marshall today granted a re-  
quisition for the return from Texas  
of Sylvanus Bernham, who is charged  
with the murder of Nancy Rosa Tritt,  
near Terre Haute, Ind., 32 years ago.  
Bernham in 1877 was employed by a  
grandfather of Miss Tritt and he  
fell in love with the girl. He propos-  
ed to her but she rejected him. Evi-  
dence at the coroner's hearing at the  
time developed that Bernham was  
heard to tell the girl that if she  
did not marry him she would never  
marry another. That night the farm  
house was burned to the ground.

Bernham, with others, tried to put  
out the fire. At daylight the body of  
the girl was found, horribly stabbed.  
Bernham disappeared and although  
he was indicted, he was never caught.  
Recently a land seeker from Terre  
Haute recognized Bernham on the  
streets of a Texas town. He talked  
to him and found that Bernham is  
married, has two children and is  
superintendent of a Sunday school.  
The old warrant for his arrest was  
dug up and the requisition granted.  
Officers are rushing to Texas for the  
man.

### THOMAS FITZGERALD BURIED

BALTIMORE, March 30.—The  
funeral of Thomas Fitzgerald, form-  
er general manager of the B. & O.,  
who died Sunday after a lingering  
illness, was held this afternoon.

## ECZEMA VICTIM SAVED AFTER THIRTY YEARS

Wintergreen Compound Stopped Itch  
at Once—Disense Soon Dis-  
appeared.

After dosing the stomach for years  
and trying all kinds of alleged cures  
for eczema, Mr. M. T. Firmin, re-  
ports a perfect cure. He simply  
washed the skin with an oil of win-  
tergreen compound, mixed with thy-  
mol, glycerine, etc.

Mr. M. T. Firmin, for the last 20  
years in the employ of the C. S. Dan-  
iels Furniture Co., of Wichita, Kan.,  
writes:

"Eczema first appeared on my body when  
I was a child 8 years of age. For over thirty  
years I scratched and scratched and doctored.  
It drove me wild."

"The disease covered my entire body from  
my scalp to my toes. My doctor and my friends  
all gave me up as incurable."

"Then I commenced using the D. D. D. reme-  
dy. The first application stopped the horrible  
itching and gave me a night's sleep. It gave  
me strength and hope. I continued growing  
better."

"I kept up the treatment for months and  
now am entirely cured, keeping a little  
roughness on my left ankle."

Having personally known of  
many chronic cases, we have gained  
great confidence in D. D. D. Prescrip-  
tion.

## TAR AND ACTRESS LAUNCHED AT LAST

NEW YORK, March 30.—Elfie  
Fay of vaudeville and musical come-  
dian, and Ensign Leslie Barrett  
Anderson, U. S. N., were ruled off  
the matrimonial course temporarily  
yesterday afternoon just because the  
marriage license bureau had neglect-  
ed to put the official signature to  
their license. They will make an-  
other attempt to have the knot tied  
either today or tomorrow. Ensign  
Anderson, who is 24 and coated with  
an attractive all-around-the-world  
cruise tan, sailed at six bells today  
for the city hall and have to in the  
license office, flying the interna-  
tional code signals for "What are you  
trying to hand me?" With the li-  
cense finally in ship-shape, the hap-  
py couple went cruising for a sky  
pilot.

Ensign Anderson hails from Phil-  
adelphia. Miss Fay was born in  
Ireland the land of her father. Her  
mother was French.

Miss Fay was introduced to the  
young naval officer by letters from  
mutual friends. The courtship was  
entirely by correspondence, the  
young people not meeting until En-  
sign Anderson's ship, the Missouri,  
put into Hampton Roads at the close  
of the big cruise.

## THAWED DYNAMITE, EIGHT ARE KILLED

CHILLICOTHE, Ohio, March 30.—  
Eight men were killed and 11 in-  
jured as the result of an explosion  
of 400 pounds of dynamite near  
Pride, this county, this morning.  
The men were engaged in thawing  
out the dynamite, which was capped  
and one stick, catching fire, exploded,  
setting off the rest. All the men were  
engaged in the double tracking of  
the Norfolk & Western and were  
standing around a fire, warming pre-  
paratory to going to work.

J. D. MacNamara, foreman of the  
road, was one of the eye-witnesses of  
the explosion. He says the men were  
seated around the fire waiting for the  
dynamite to warm. The holes in  
which it was to be placed were drilled  
during the night and nothing  
could be done until it warmed. As  
the morning was chilly, the men  
were enjoying the huge fire of cross  
ties build along the tracks. One of  
the colored men noticed while sitting  
there, a stick of dynamite on fire  
and picked it up, and tossed it, as he  
supposed, into the brush, but it hit a  
camp car on the siding near them  
and being capped, exploded from the  
concussion. This set off the remain-  
ing pounds with a roar that could be  
heard for miles.

The foreman remembered nothing  
after this until he found himself lying  
in a ravine some 25 feet from  
where he was sitting.

## DEMOCRATS OPEN CAMPAIGN TONIGHT

The democrats will hold the first  
big meeting of the campaign this  
evening at the Centennial hall. Dem-  
ocratic candidate for mayor, Ori J.  
Sorensen, will set the ball rolling  
with the first speech of the cam-  
paign. W. F. Wolfe and O. R. Skaar  
are the other speakers that will ad-  
dress the gathering. Every democrat-  
ic candidate will be present at the  
meeting which promises to be a re-  
cord breaker. One of the other fea-  
tures will be the Third Ward March-  
ing club which will march to the hall  
in a body.

Republicans Meet Also  
The republicans will voice their  
campaign arguments at two meet-  
ings this evening. One at Kissel-  
bach's hall on the north side and  
at Kabat's hall. Dr. F. C. Suiter will  
be present at both meetings and it is  
expected that he will be a big draw-  
ing card. At Kisselbach's hall James  
Thompson and William McGaughren  
will be the speakers while at Kabat's  
A. E. Bleekman, Otto Bosshard and  
E. C. Raymond will talk.

## STEEL MEN MAY CUT WAGES TODAY

NEW YORK, March 30.—The reg-  
ular monthly meeting of the United  
States Steel corporation will be held  
this afternoon and it is reported the  
question of cutting wages of em-  
ployes may be discussed at some  
a schedule showing all that has been  
given widest circulation is that there  
will be submitted to the directors  
a schedule showing all that has been  
accomplished since the corporation  
declared an open market, the num-  
ber of orders that have been booked,  
the general outlook of the market  
and the exact cost of production un-  
der the present wage scale.

## TO BOOST COST OF LIVING 25 PER CENT

WASHINGTON, March 30.—De-  
nouncing the Payne bill as a mea-  
sure in the interests of monopoly,  
Representative Suizer (D., N. Y.)  
gave the house today his views on  
the tariff.

"The Payne bill is the highest  
protection measure ever offered in  
this country," he said. "It is for  
the sake of protection and not for  
the sake of revenue. Most of the  
Payne bill tariff schedules are en-  
tirely too high and in the interests  
of monopoly. During the past ten  
years the cost of living has increased  
more than 50 per cent. If the Payne  
bill becomes a law, the cost of liv-  
ing will go up at least 25 per cent  
more."

### RESTS IN POWDER CASE

CHICAGO, March 30.—In the  
government suit to dissolve the char-  
ter of the E. I. Dupont-de Nemours  
Powder company, the government  
rested its case here today after a  
brief hearing before Special Exam-  
iner Wm. G. Mahaffey. The exam-  
iner's report will be filed in the United  
States court at Wilmington, Del.,  
within a few weeks.

## CURES S.S.S. SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in  
the blood; the cuticle is always healthy where the circulation is free from  
impurities. When the blood is infected with acid or unhealthy matter it  
cannot perform its natural work of nourishing the skin, regulating its tem-  
perature and preserving its normal softness, pliability and healthfulness.  
Instead it irritates and inflames the delicate fibres and tissues around the  
pores and glands and produces some of the many forms of skin disease.  
The itching and stinging so often accompanying skin with which it is filled,  
by the deposit from the blood of the acid humors and the outer covering,  
into the sensitive membranous flesh lying just beneath the skin. This explains why  
scratching the outer skin affords no relief from the itching and burning.  
It S.S.S. cures Skin Diseases of every character by purifying the blood. It  
goes down into the circulation and removes the humors or acids which are  
causing the trouble, builds up the weak, acid blood, and permanently cures  
every variety of skin affection. Local applications can only soothe; they  
never cure because they do not reach the blood. S.S.S. goes right into the  
circulation, reaches the trouble and cures it by removing the cause. Book  
on Skin Diseases and any medical advice free to all who write.

# ELECTION NOTICE

OFFICE OF THE CITY CLERK,  
CITY OF LA CROSSE.

TO THE ELECTORS OF THE CITY OF LA CROSSE:

Notice is hereby given that a city election is to be held in the several wards in the City of La Crosse, on the 6th day of April, 1909, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to this office are given opposite to the title of the office and under the appropriate party or other designation, each in its proper column.

## INFORMATION TO VOTERS

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place and giving his name and residence will receive a ballot from the ballot clerk which must be indorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must return it to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or induce in any manner whom to vote for. The voter, if he wishes to vote for all the candidates nominated by any party, should make a cross X under the party designation printed at the top of the ballot in the circle made for that purpose. A ballot so marked, and having no other mark, will be counted for all the candidates of that party in the column under which, unless the names of some of the candidates of the party have been crossed or a cross mark be placed in

the square under the name, or at any place in the square occupied by the name or names of candidates in another column, and will be counted for any name written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark under the name of each candidate he desires to vote for, or in any place within the space in which the name is printed. If he wishes to vote for a person for a certain office whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for office. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memoranda to assist the voter in marking his ballot can be taken into the booth, and may be used to copy from. The

ballot must not be shown, so that any person can see how it has been marked by the voter. After it is marked it should be folded so that the inside cannot be seen, but so that the printed indorsement and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot can have assistance of one or two election officers in marking the same, to be chosen by the voter; and if he declares that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath in his discretion as to such person's disability. The party designations and candidates for the different offices are as follows:

## AT THE BIJOU

The only thing about the Bijou entertainment that is cheap this week is the admission price. There are no dull moments in any part of the bill and every thing seems to run on greased wheels. Of course s. r. o. was at a premium.

The Langdons have on the finest stage setting ever put on the Bijou stage. The scene representing mid-night on the boulevard with its rows of lights on each side of the street disappearing in the dim vista of the night made a most realistic picture. There is good singing, fine appearance and snappy street patter in the skit that is put over in a manner to return applause. The electric lighted automobile was beautiful in its colored light effects and was the means of extracting spontaneous approval that reached the climax of a strong hit.

Mr. Gus Bruno is not only a capital story teller and dialectician, but he is a good linguist. He has a quantity of humorous talks and recites his character skits in a way peculiarly his own. His singing of "And Mother Has Not Spoken to Father Since" in half a dozen tongues and as many dialects won him many laughs. He took several bows and retired a high favorite.

The Majestic Trio, composed of three young men, are high class singers. Bijou audience, in fact all La Crosse audiences, are especially partial to music, and one or more musical acts on every bill would never tire vaudevillians. The Trio scored very strongly in their solos, duos and ensemble work. They made a very neat appearance in their white trousers, black coats, neglige shirts, black ties and white hats. There is a number which will be thoroughly enjoyed by Bijou patrons this week.

A peculiar and most interesting novelty, in the form of Mantell's Mysterious Automaton, is present at the Bijou this week. This act has traveled over all the foreign countries and also has appeared in the leading cities of the United States. Special scenery and electrical setting transform the stage into a regular miniature theatre, and figures of people in various actions are introduced. Mechanical effects follow in such rapid succession that the audience is fairly bewildered at this laughable and wonderful pantomime. Si and Mandy have come to see the show, and when Si becomes hilarious over Salome, Mandy proceeds to administer a dose of parol. Cissy Chew-in-gum is very prominent in her rubberneck inspirations, while Souserina leads the orchestra on its way. This is an entertainment away from the ordinary and something that please young and old. As the headline act at the Bijou this week Mantell's Marionette Hippodrome and Fairland Extravaganza European novelty is a strong and appreciated feature.

The Bijou offers two resible films. "Fatty's Pollies" is a burlesque that reaches the altitude of a scream, and "Wonderful Fluid" is a good second to the former in its laugh provoking incidents.

## JOHN CARSON DIES IN CHIPMUNK COULEE

John Carson, an old resident of La Crosse county, died Sunday morning at his home in Chipmunk coulee after an illness of several days' duration. Mr. Carson was 61 years of age. Heart disease was the cause of death.

Surviving are his widow, four sons and one daughter. They are Henry, Fred and Louis of this city and George of South Dakota and Mrs. Joseph Giefer of this city. He also leaves one sister, Mrs. George B. Rose.

The funeral will be held tomorrow afternoon at 1 o'clock from the house, Rev. Palarchek of the German Lutheran church officiating.

**U. OF W. HAS 4,521 STUDENTS.**  
MADISON, Wis., March 30.—An attendance of the state university of 4,521 students this year, an increase of 508, or 12½ percent over the enrollment of last year, is shown by the new catalog of that institution now in press. If this increase continues at the present rate the university will have 10,000 students within the next ten years.

## PRINCESS TO PAINT TAFT'S PORTRAIT

NEW YORK, March 19.—Princess Vilma Looff-Parlaghy has arrived in this country to paint portraits of 25 of the brainiest Americans. These will include, first and foremost, the picture of President Taft arrangements for the painting of which, she says, have already been made. Cardinal Gibbons, Graham Bell, Thos. A. Edison are among those whom she expects to paint during her two months' sojourn here in America. The princess created a sensation on the Hamburg-American liner Kaiserin Augusta Victoria with her large entourage. The gorgeous uniforms of her attendants created almost as much attention as had been caused by her "menagerie" on a former voyage, when it was laughingly said that she turned the Deutschland into a Noah's ark.

## ARRIVES TOO LATE TO SEE HIS MOTHER

CHICAGO, March 30.—Frank A. Vanderlip's record breaking trip from New York to Chicago, which he made at the rate of 60 miles an hour, failed to bring him here in time for the death of his mother, but he was advised today that his grandmother is now dying in the same house. The grandmother is not expected to survive the day. The New York banker made the trip from New York in 16 hours and 7 minutes, including stops.

## Counsel for Defense.

Politics and love are the combination on which Henry Irving Dodge has chosen to build up a new play, "The Counsel for the Defense," in which Mr. Shea comes to the La Crosse theater Friday and Saturday, April 2 and 3. A peculiar plot utterly out of the ordinary with circumstantial evidence as the main theme, making this piece one of our modern American masterpieces, covering as it does every day occurrences in our large cities. Saturday night, Mr. Shea will be seen in "Dr. Jekyll and Mr. Hyde," and Saturday matinee, "The Bells." Mr. Shea is under the direction of Cohen and Harris, who have provided him with these sumptuous productions, and the usual excellent cast.

I want to send you without a cent of expense on your part this \$1.00 package of what I am free to call a really wonderful fat reducer.

I will tell you why you are fat if you will send for this free package of my treatment. I can tell you a good many things about your fat which you probably never knew about and ought to know.

When I tell you here what my treatment can do I speak from hard-earned experience, not from my own, but from the experience of others who have tried almost everything from starvation to violent exercise and drugs and have failed until they tried and used my treatment.

**Loses 62 Pounds; Thanks God For It**

Further Proof of Wonderful Strength—Giving Effects of Kellogg's Treatment

Mrs. S. E. Carter of Tracy, Ky., lost 62 pounds of flesh and says she thanks God for the great blessing the treatment brought her.

"I feel better than at any time in fifteen years," she writes. "My weight at this time is 148 pounds."

"Very soon I began to feel beyond all doubt that I was really losing as fast as was best. I weighed at commencement 210 pounds, as you can well see by my photo."

"I shall ever be grateful to you, and thankful to God, that I found the right remedy on first trial."

"You can use my name when you want to. Anyone that wants to hear what I have to say in regard to such a great blessing will please write me and I will answer all letters."

## Lost 30 Pounds

**In 30 Days.**

Mr. R. J. Richardson, of Bolckow, Mo., writes:

"I have already taken two months' treatment, I never fail to recommend your treatment to any fat person I see, for it surely does the work. I got a month's treatment and I lost just thirty pounds in thirty days."

## How Much Flesh Should You Lose?

What the Well-Formed Man or Woman Should Weigh.

The following is the correct height and weight of a well-formed man. A woman's weight will be generally about 8 pounds less than the following figures:

5 ft. 0 in.	121 lbs.
5 ft. 1 in.	124 lbs.
5 ft. 2 in.	129 lbs.
5 ft. 3 in.	135 lbs.
5 ft. 4 in.	139 lbs.
5 ft. 5 in.	145 lbs.
5 ft. 6 in.	149 lbs.
5 ft. 7 in.	156 lbs.
5 ft. 8 in.	161 lbs.
5 ft. 9 in.	166 lbs.
5 ft. 10 in.	171 lbs.
5 ft. 11 in.	176 lbs.
6 ft. 0 in.	182 lbs.

A lady's waist should be two-fifths of her weight.

## "Ohio's Fat Boy" in 70 Days Loses 189 Pounds.

Prof. F. J. Kellogg. My Dear Sir: Your Safe Fat Reducer is all and more than you ever claimed for it. My weight today, after ten weeks' treatment, is 285 pounds, a loss of 189 pounds, as I weighed 474 pounds when I began with the Safe Fat Reducer. I never felt so well before, not even in 1896, when I was in hard training as a professional bicyclist, and riding partner of Baby Biss. The reduction has been natural and gradual, and has at no time interfered with my regular daily duties or

caused me the slightest inconvenience in any way. The action of my heart is strong and regular, and I have got rid of that "smothered up" feeling which bothers all excessively fat people. My breathing is easy and I feel strong and active, and lighter on my feet than I have been for years.

"Please send me another supply of your Safe Fat Reducer, as I am about out."

"Very truly yours, J. H. Beeble, Jr., 607 Cedar Street, Canton Ohio."

## 101-12 Pounds Gone.

The remarkable case of Miss Artie Adams of Shelby, Ohio, is illustrated in her own words:

"When I look back to the time before I took your wonderful obesity cure I do not see how I stood it. My weight is now 163½ pounds, and I have lost 101½ pounds. I can hardly believe that there has been such a difference in my feelings and appearance. But, oh, how thankful I am that I found a cure for my awful burden of fat, in Kellogg's Safe Fat Reducer. I can hardly realize that I weigh now only 163½ pounds. You can use my letter as a testimonial if you wish."

## Cures Prominent Nurse Of Terrible Fat.

Clara Elizabeth Doolittle, nurse for over fifteen years in America's best hospitals, including New York City and homeopathic hospitals of New York, praises the Kellogg Safe Fat Reducer:

"When I commenced treatment with Safe Fat Reducer I weighed 260 pounds, my chest measure was 42 inches, waist measure 32 inches and hips 48 inches."

"For four months I have been losing in weight constantly and naturally and with no ill effects, and am feeling much better."

"Today I weigh 148 pounds. My chest measure is 37 inches, waist measure 27 inches and hips 40 inches."

"I cannot speak too highly of Mr. Kellogg and the great work he is doing for fat-burdened humanity." Clara Elizabeth Doolittle, Box 64, Tekonsha, Mich.

## Leaves No Wrinkles.

You should have no fear, after being reduced by Kellogg's Safe Fat Reducer, that your loss in weight will result in wrinkles, as is usually the case with so many treatments used for flesh reduction.

## NAY, NAY; NO NEW SALARIES THIS YEAR

The raising of the question of legality at the council meeting Friday evening probably cost the aldermen the tidy little sum of \$200 each. This amount at which they have been casting longing eyes for the past two months was snatched from under their very noses when they believed they already had it within their grasp. As it is they will have

to wait until next February before they can enjoy the luxury of a \$200 salary.

The way it all happened is this: Alderman Keller had through some misunderstanding believed that a portion of the general charter would be adopted which would give the council the right to raise Controller Fries' salary to \$1,900. Now the city charter specifies that the controller shall not receive more than \$1,800, so the resolution of the finance committee was corrected to

read \$1,800 upon the motion of Alderman Emery.

Right here the question of the legality arose and all through the meeting it hung like a pall over the horizon where dame Fortune beckoned with outstretched hands for them to come and get the \$200 which they could have for the very asking.

When the time came to vote themselves salaries the question of legality—how sinister it sounds—again popped up like a "Biot on the Es-

cuteon" and of course, as the portion of the general charter reads: The salaries of the city officials will be fixed at the first regular meeting in February, so by it they must abide.

If the question of whether they were working under the new charter or the old charter had not been brought up the aldermen would have created salaries for themselves and no one would have questioned its legality, but now—well, maybe you know how it feels to lose a couple of hundred "plunks."

## TRY THIS FOR COLDS

Mix half ounce of Concentrated pine compound, which can be procured from your druggist, with two ounces of glycerine and a half pint of good whiskey; shake it well each time and use in doses of a teaspoonful every four hours. The Concentrated pine is a special pine product refined for medical use, and comes only in half ounce bottles, each enclosed in a round wood case. Relieves in a day.

The trouble with the man who gets there with both feet is that he thinks the world is his door mat.

## DOGS BEING FED ON GROUND GLASS

INHUMAN CRANK ABROAD TO KILL ANIMALS

## GEIOWITZ'S SPANIEL VICTIM

Pretty Little Fellow Eats Fatal Food and Dies Within a Few Hours

During a post mortem examination held on the remains of a valuable cocker spaniel, belonging to J. E. Geiowitz, the jeweler, which died without apparent cause, about 5 o'clock Sunday afternoon, Dr. Patterson discovered that the stomach and intestines were badly cut by ground glass.

This throws a little light on the mysterious deaths of about a dozen dogs during the past month in the vicinity of Eighth and Mississippi streets. It is evident that some one, to whom the sight of a dog is onerous, is conducting a crusade to exterminate all animals of that species in that neighborhood. The dogs are, presumably, put out of the way by being fed with some sort of food which has been specially prepared with ground glass as the chief ingredient.

The dog belonging to Mr. Geiowitz became sick in the forenoon and as nothing would relieve the condition of the animal, Dr. Patterson was called, but could do nothing for it. The dog died about 5 p. m. and the examination which followed to determine the cause of its death, brought to light the ground glass.

The police are working on the case. The crime carries a penitentiary sentence.

## FRATERNAL RESERVE HAS ENTERTAINMENT

On Thursday evening, April 1, the Badger Council, Fraternal Reserve association, will hold an open initiation and entertainment at the Knights of Pythias hall. The fourteenth successive class will be initiated at this time.

The program which will precede the dancing is as follows:

Open initiatory ceremonies in full regalia—By the degree team.

## ANTI-OPTIONISTS PREPARE PETITIONS

Saloon men in La Crosse and citizens generally are being asked today to sign anti-county option petitions to the legislature which are being extensively circulated. It is understood that the petitions must be in the hands of the assemblymen by tomorrow evening as the measure will probably come before the legislature Wednesday morning.

The petitions are being generally signed, the brewery and saloon interests being active in their circulation. Some time ago a similar set of petitions was circulated here in favor of the proposed county option law.

A man who does a really charitable act is as modest about it as if he were receiving charity.

## PLANS FOR P. O. ADDITION HERE

**WHEN COMPLETED WILL MAKE BEAUTIFUL STRUCTURE**

**DOUBLE PRESENT CAPACITY**

Washington Construction Department Agent Here With Drawings of \$40,000 Improvement

Max F. Foerster, of the construction department at Washington, is in the city with the plans of the new addition to the postoffice. Postmaster W. B. Tschamper who is looking over the drawings is delighted with the plans which will probably be submitted to the contractor inside of three months. Bids will then be made and the work commenced immediately.

The plans for the new addition call for a three story building that will extend the full length of the lot on the alley, making a most imposing structure. The cost of building the new addition will cost about \$40,000. An elevator is planned for the building which will make the offices on the third floor as desirable as those on the first.

It is expected that with the addition completed the office will have nearly twice as much room as there is at the present time. Besides being one of the most beautiful buildings in the city the new office will bear favorable comparison with any in the entire state.

**TAWNEY ROUNDS UP WESTERN MEMBERS**  
WASHINGTON, D. C., March 30.—An effort is being made by Representative Tawney (R., Minn.) to round up the tariff sentiment of all the republican members from western states. His object is to ascertain the sections of the tariff bill on which they desire a separate vote. When this has been done, the house leaders will be asked to include in the rule for the passage of the bill a separate vote on schedules for which there is a strong republican demand.  
The Michigan delegation is considering the question of making a united stand against the taxes on tea and coffee.  
Advocates of free lumber feel confident that if a separate vote is secured in the house that lumber which is taxed a dollar a thousand feet in the Payne bill will be placed on the free list.  
Indications are that the general debate will end in a few days, possibly by Thursday. It is understood that Champ Clark, the democratic leader, has agreed to such a program on the ground that the time instead of being devoted to general debate could be put to much better use by debate on the sections under the five minute rule.

Mrs. Soper lives in Big Pond, Pa. It works wonders in Coughs and Colds, Sore Throats, Hemorrhages, La Grippe, Asthma, Croup, Whooping Cough and all Bronchial affections. 50c and \$1.00. Trial bottle free. Guaranteed by O. T. Erhart.  
**IDENTITY OF DEAD MAN IS SOLVED**  
Communications received here by Judge Kleeber, from Alfred Olson, a railroad man in Aberdeen, in regard to Charles Zettel, the man who was found dead in the vestibule of a baggage car at Grand Crossing last Thursday, state that he is an Austrian and had worked on the railroad out there during the past two years. According to the letter received here, the man had visited his mother in Austria last fall and upon returning to this country had written Mr. Olson that he was returning to Aberdeen as soon as his brother arrived from Austria. From the fact that he was alone it is presumed that either his brother had failed to come over or else he had been "ditched" while beating his way on trains. Otherwise he has no relatives in this country. The coroner received a letter from John Schneider, a wine and liquor dealer in New York, stating that Zettel had worked for him, but had been discharged after working there for four months. Mr. Schneider stated that Zettel had a mother in Vienna, Austria, and that she maintained a fruit stand on one of the streets of that city.

**DAILY MARKETS**  
**FOREIGN MARKETS**  
New York Stocks.  
NEW YORK, March 30.—Moderate recessions were in order in a majority of stocks traded in during the first fifteen minutes, but the reactionary tendency was considered natural following the sharp advances of the two preceding days. Amalgamated Copper declined 5-8 and Smelting, Union Pacific, Pennsylvania and other important stocks small fractions. New York Central after opening a shade higher, dropped over a point, but recovered part of this loss quickly. Atchafson advanced 1/2. 11 a. m.—Price movements all through the first hour were mixed to a moderate degree. Eries were strong, the common advancing 1/2, and the first preferred 2 1/2. Coppers, Union Pacific, Southern Pacific and Reading were heavy and showed some loss. Government bonds unchanged; others firm.  
Noon.—After the first hour the trading element on the floor worked for a reaction offering American Smelting and Union Pacific at moderate concessions but the buying demand was met by commission houses having heavy orders again in the market and before noon there was a decided improvement in the tone.

Winona papers complain that when the theatre special from that city brought about three hundred people from Winona, Galesville, Trempealeau and adjoining towns to see the production of "Ben Hur" here last week, the show was started at 8 o'clock and that the visitors were unable to reach the theatre until after the prelude was over and a portion of the first act was completed. #### SPRING OF SIN IS HUMAN HEART

SO SAYS REV. A. LINCOLN SHUTE  
IN SERMON

#### MAN RESPONSIBLE FOR ACTS

That Man Has a Depraved Heart is Proved by Direct Declaration of Scriptures He Says

The special meetings opened last night at the first Methodist Episcopal church with a sermon by the pastor, Rev. A. Lincoln Shute, on the question, "Salvation—Do We Need it and if so, Why?"

The text was Mark 7:21, 23: "From within, out of the heart of men, evil thoughts proceed, and defile the man."

"This passage," said the pastor, "touches the moral condition of the soul and its consequent relation to the spiritual life. Our thought concerning the depraved character of the human heart lies at the foundation of our thought of salvation: Is salvation a reformation or a revolution? Is it ethics or redemption?"

"That man has a depraved heart, is proved by the direct declaration of scripture and by inference from the fact that there is no life from mere law, anciently divine or modernly psychological. This depravity is natural—that which is born of the flesh is flesh—flesh in the sense of depraved or sinful moral quality. All men know that sin is universal. Its cause must be as universal as the sin. The spring of it all is the corrupt human heart, out of which are the issues of life."

"But no man is guilty because he has been born with a morally diseased nature. He is not responsible for that. What we are responsible for, is what we do and how we act with this depraved heart. If we follow its bent and submit to the devil, we become actual sinners, lawless rebels against the authority of God. This separates us from God, adds to the corruption of our already depraved natures, and involves us in guilt. And all this is done by us in the light. 'This is the judgment, that light has come into the world, and men loved the darkness rather than the light; for their works were evil.' No man can come face to face with Jesus Christ and deliberately reject him, and thereafter remain the same."

"Do not let your heart deceive you; it cannot deceive God. He offers to take away the old heart, and to give you a new heart and his own spirit. Then get rid of your depraved heart—the spring of all wrong and sin—before it leads you to sin and guilt and hell. Man needs salvation because he is a sinner. Jesus will save, if you come to him with the sincere prayer, 'Heal me, O God, and I shall be saved.'"

The subject tomorrow night will be, "Where can we get salvation and what does it cost?" Mr. Shute will explain the relation of Christ's atoning death to our salvation.

#### Conscientious Bill

"Bill had charge of the animal tent," said the old circus man, "and among his pets was a leopard, the only one we had with the show, and quite enough too. This leopard gave Bill more trouble than all the rest of the menagerie put together. It was certainly an ugly brute."

"Well, one day, when we were showing in the Midlands, I had come up to London to arrange about some advance business. I was eating my dinner in the hotel when a telegram was handed to me. It was from Bill, and said: 'The leopard has escaped. Prowling about town. What shall I do?'"

"That was just like Bill. He had to have explicit directions, even in an emergency like this. He didn't want to make a mistake."

"I immediately wired back to Bill: 'Shoot him on the spot. I didn't think any more about it until a couple of hours later, when I received another telegram from conscientious, careful Bill, asking: 'What spot?'—Tit-Bits."

A certain kind of woman can be glad she married a man so as to be able to tell him she is sorry she did.

A man's idea of being generous to his wife is taking her on a trip where she doesn't want to go.

MISS WILEY

Miss Lois Wiley, daughter of Congressman O. C. Wiley of Alabama, is one of the social leaders in the younger congressional set at the capital, and one of the favorites in Washington drawing rooms.
